

# Cisco Touch 10

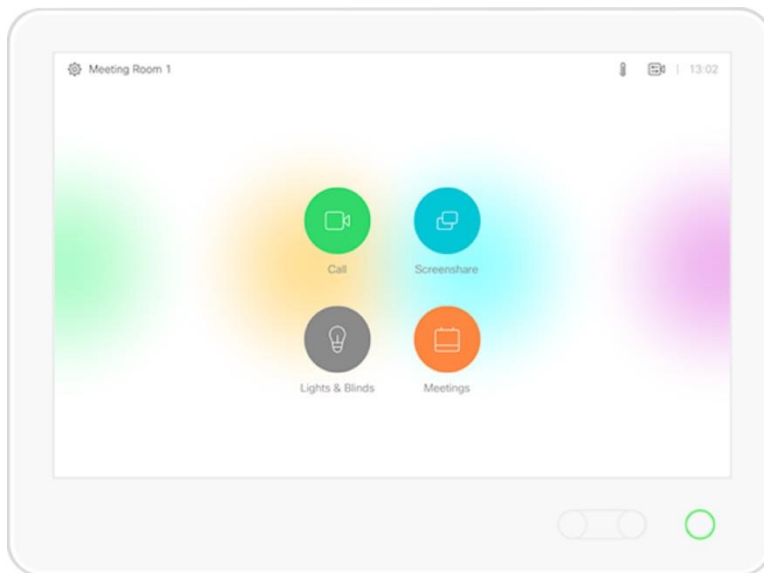

## Product Overview

The Cisco Touch 10 control unit is an intuitive device designed to give you a delightful experience when interacting with Cisco video conferencing systems – with just a touch or swipe of your finger. This touch-based unit is optimized for an effortless user experience – from launching and ending a video conference, to sharing content, to viewing contact lists and directories, and even accessing voicemail messages.

The Touch 10 supports the Cisco MX-, SX- and IX-Series, as well as the Cisco Spark Room Series, video conferencing devices.

With the latest innovations, the Touch 10 is also able to easily control other room peripherals such as lighting, room dividers, and curtains, through a customizable API<sup>1</sup>.
